At Rose day 2017 we conducted some research to see what YOU wanted to be seen and be a part of with the School PTA. One of those things were small projects around the school grounds that make a big difference.

Over the course of the year the PTA will be hosting a number of small campaigns to do our bit to improving the all round learning environment out the school for the benefits of the Children, the Parents & Carers and the School Staff.

Part 1: The Main Entrance

The Crossflatts Allotment had to be taken apart recently due to wear and tear. The plan is to lay grass down over this area to tidy it up.

In order to lay the grass, we first need to landscape the area, and making it suitable for laying the grass onto. If anyone has any machinery or the experience of using a rotavator and could spare a few hours during a school day or early mid week evening this would be massively appreciated.

We are also looking to breathe new life into the bike shed. The bike shed is often used, but currently it is missing a roof panel and is in desperate need of a coat of paint.

We have the Panel to re-fix to the top of the bike shed. It is in need of good clean with a pressure washer, and someone with experience of metal work/joinery. The bike shed is also used by many when waiting for the Gate to unlock when picking up the children when the weather is bad.

Can you spare a few hours during a day to help with:

- Cleaning down and painting the bike shed
- Re-fixing the roof panel
- Rotavating the old allotment area

If you can please email the PTA so that we can coordinate with the school.
