Year 6

Open a book and grow your mind...

The Crossflatts Reading Tree

In Year 5 and 6, we have a brand new and exciting reading scheme – the Crossflatts Reading Tree.

Here is everything that you need to know:

1. The children have all chosen a book from the Reading Tree.

Reading Tree books have been carefully selected by our staff to cover a range of exciting topics and genres. They are real books that are recommended for children of Year 5/6 age.

2. The children can read their book in school and at home.

3. When they have finished with their book, the children will write a short book review in their reading record and swap their book for a new one.

4. If the children find that their book is a bit tricky, or they are not enjoying it after giving it a good go and reading a few chapters, they can exchange it for a different one.

5. Reading Tree books can be shared at home too. If Parents would like to read the book to their child then this is a great idea. It doesn't have to be read independently.

6. Some children may be given a colour banded book as well to help them to Practise their reading fluency skills

We hope that by having access to a wide range of texts and working their way through the Reading Tree throughout the year, the children will become confident, independent readers. They will be encouraged to try different books and will find something that they love to read.
