

PE

Mr Wilkinson - Year 3 Class Teacher - PE Lead

Mrs McHale - Year 5 Class Teacher - PE Lead

I have been part of the Crossflatts family for six years, five of which I have spent as PE Lead. I have loved seeing PE develop across school and, most importantly, seeing more and more children discover a love of being active. I am passionate about giving every child the opportunity to take part, have fun and feel proud of what they can achieve. Whether it is representing school in a competition, getting active at playtime or developing new skills in PE lessons, I want every child to feel that PE is for them. I am incredibly proud of what we have achieved so far, from significantly increasing participation in sporting events to developing our Active Schools approach, for all children to participate and build on our Gold School Games Mark as we work towards Platinum.

I have been a teacher for 20 years and have been part of the Crossflatts Primary School community for the past five years. With a BSc in Sport and Exercise Science and a passion for health and fitness, I am proud to collaboratively lead P.E. across our school.

I am passionate about helping every child develop their health, fitness and physical skills, while most importantly ensuring that they enjoy being active and feel confident taking part. My aim is to inspire children to build positive, lifelong relationships with exercise and understand the many benefits that an active lifestyle can bring.

Our Vision

Our vision is to provide a fun, high-quality and inclusive PE curriculum that inspires children to become physically confident and develop a lifelong love of physical activity. Through our skills-based curriculum, children develop their physical abilities alongside important values such as teamwork, resilience, fairness and respect.

We aim to provide opportunities for every child to be active, whether through PE lessons, competitions, clubs, active playtimes or pupil leadership. Our curriculum and sporting offer are continually evaluated and developed to ensure that all children can participate, achieve and enjoy being active.
