

Music

Miss Senior – Year 6 Class Teacher – Music Lead

Music and singing have been an important part of my life since childhood, and my own experiences have given me a deep appreciation of the joy, confidence and opportunities that music can bring. As Music Lead, I am passionate about inspiring children to develop a lifelong enjoyment of music and to discover their own voices, talents and creativity.

I believe that every child should have the opportunity to experience the benefits of making and enjoying music. Music can play an important role in supporting children's mental health and wellbeing, providing opportunities for self-expression, connection and enjoyment. It also contributes to brain development, helping to develop skills such as listening, memory, concentration and problem-solving, while encouraging imagination and creativity.

Our Vision

My aim is to create a rich, inclusive and vibrant musical culture throughout the school, where every child has the opportunity to experience the joy and benefits that music can bring. I want to create an environment in which children feel confident and encouraged to sing, perform, listen to and explore music in a variety of ways, regardless of their previous experience or perceived ability.

I believe that music should be accessible to everyone and should play an important role in the life of the whole school. Through high-quality and meaningful musical experiences, I hope to inspire children to develop a genuine enjoyment and appreciation of music, while giving them opportunities to discover their own talents, interests and creativity. Whether through singing together, performing, composing, listening or exploring different musical styles and cultures, I want children to see music as something they can participate in, enjoy and carry with them throughout their lives.
