

Launchpad for Literacy

Mrs Tetley - Reception class teacher - Launchpad for Literacy Lead

This is my eighth academic year as part of the Crossflatts Family, and my fourth year teaching Reception.

I am passionate about teaching EYFS and setting the foundations for early Literacy through sharing and enjoying books, stories, songs, rhymes and games.

Ensuring the children have a nurturing environment where they feel safe and secure to express themselves is of the upmost importance to unlocking their potential. We provide rich learning experiences alongside high-quality teaching which allows interaction and communication skills to flourish.

Our Vision:

Our vision for our Crossflatts children is that they leave their early years with no stone unturned. Launchpad for Literacy works alongside the Early Years Curriculum to identify specific skill gaps within Literacy. It gives practitioners and leaders a tool to consider with more specific detail what the children can do and what they need to move on to next. This enables many issues to be addressed, be it phonic readiness, speech and language, EAL, SEND and/or general progression. With a Literacy focus at the forefront we can build meaningful relationships and experiences while also enriching our children's language and vocabulary.
