

# Religious Education

## Meet the Leader

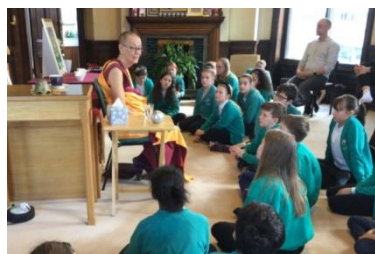

Mrs McHale - Year 4 Teacher

*I have been part of the Crossflatts family for two years now and one of the many things that first attracted me to the school was the breadth of their curriculum offer which includes many religious education visits. I noticed straight away how religious education plays a big part in the overall ethos of the school and how diversity and individualism are celebrated throughout. These values align entirely with my own so I was delighted when I was asked to lead the subject of R.E.*

## Our Vision

At Crossflatts Primary School all members of staff are united in their understanding that top quality religious education is imperative if we are to shape a future in which everyone can live harmoniously in our diverse community. Our curriculum is designed to engage and excite children while they learn about religions, cultures, ideas and values that may be different to their own. Through visits to places of worship, celebration days and faith leader visits, the children at Crossflatts Primary School develop and practice tolerance and curiosity about religions and leave our school knowledgeable and well equipped to make positive contributions to our multicultural society.

Listen to what our children think religious education on the video below:
