### School Development Plan Key Priorities 2019/20

#### Our Plans for Improvements:

We are always improving our school and in 2019/20 we will be specifically working on four things to make our school even better- these are:

- 1. To further develop the school's curriculum so that pupils are able to gain the knowledge and skills they need to succeed. The non-core curriculum needs to include the most appropriate content for the children in our school and needs to be organised and taught explicitly in a systematic and logical progression.**
- 2. To further develop the knowledge and expertise of subject leaders, especially of those who are leading non-core subjects, so that they are able to lead the design and implementation of the curriculum for their subject effectively.**
- 3. To continue to develop our model for challenge within our teaching and learning in order to provide a framework for the effective design and delivery of our curriculum within our classrooms.**
- 4. To develop pupil's phonic knowledge and skills and their ability to use these skills so that they are able to read fluently and accurately appropriate to their age.**

**Non-core curriculum -Subject leadership of non-core curriculum- Challenge across the curriculum -Phonics.**
