SEND Information Report 2020-21

The SEN information report has been written in response to the revised Special Education Needs Code of Practice (2014) and aims to publish information about the implementation of our SEND policy.

Our full SEND policy is available on the school website. Both the SEND information report and SEND policy

are closely linked to ensure consistency and coherence. Our SEND information report reflects Bradford's Local Offer which can be accessed through <u>https://localoffer.bradford.gov.uk/thelocaloffer.aspx</u>

What	At Crossflatte Primary School every child is considered as an individual and provision is arranged on this
educational	basis. The needs of all children are closely tracked and monitored by all staff. This rigorous monitoring allows
needs do we	us to identify any concerns or specific needs. Special Educational Needs are broadly grouped into 4 primary
provide for?	areas, within these areas there are many different descriptors of need and a wide range of provision which
	may be needed.
	• Communication & Interaction
	Cognition & Learning
	Behavioural, emotional and social development
	Sensory and physical needs.
What policies	At Crossflatts Primary School, we identify children with SEND as early as possible, through initial contact with
and procedures	our feeder Early Years settings and by assessment at the start of the Foundation Stage Year. We rigorously
do we have in	monitor and track the progress of all children by an ongoing process of planning, teaching and assessment. If
place for	the progress of a child has stalled, discussions will take place with the class teacher and SENCO to identify
identifying and	any specific need and the next steps.

 emotional or behavioural difficulties persisting despite the use of the school's behaviour management programmes self-help skills, social and personal skills inappropriate to the child's chronological age diagnosis of a previously unidentified medical condition, communication problem or sensory impairment Looked After children, in liaison with Children's Services for a child who is new to the school, records from the previous school indicating that additional intervention has been in place parental concerns regarding academic progress, behaviour, social adjustment and/or communication skills other adults concerns e.g. from medical services, Educational Psychologist, Children Services, Learning Mentor, School staff
 Parents of children with SEND are kept fully informed of the provision that is being made for their children. Parents are invited into school to discuss the needs of their child who have an Additional Action Plan or Individualised Education Plan (IEP). During these meetings, current targets are reviewed and new targets are set. Class teachers and the SENCO have regular meetings with parents and encourage active involvement with the school to help the children to overcome their difficulties. We hold Additional Action Plan/Individualised Education Plan Review meetings at the end of each term with teacher and parents. The school will always ask permission of parents before approaching other professionals and outside agencies for information about their child. The school use Galaxkey to send any electronic documents securely via email.
If a parent is concerned about their child's progress, they could speak to their child's class teacher or SENCO so that their concerns can be addressed and additional actions put in place.
• We work closely with our children to ensure they are fully involved in target setting and making plans to support their needs. Teachers discuss new Additional Action and IEP targets on a termly basis.

SEND to involve them in their education?	 We conduct termly conferencing for children with SEND to identify the things they feel they do well and what areas they could improve. From this IEP's are written, ensuring the view of the child is taken into consideration. IEP and Additional Action targets are presented to children in a format they can access to enable them to discuss their learning targets with confidence. We hold peer interviews termly to ask children what they feel could work better in school and the things that they feel work well in school. We ask the children their opinions about school life. Children with SEND are encouraged to be part of the School Council or be a part of any other additional extracurricular activities in school, such as choir, sports or competitions/trips.
How are children with SEND assessed and reviewed to ensure they are making progress?	 Every teacher closely tracks the additional provision for their children. The SENCO takes responsibility for monitoring the success of provision maps. Provision maps are used consistently and effectively throughout school. All teachers keep an SEND file for their class. This file will contain all key documents in relation to any child with an additional need. The SENCO keeps all personal files and information for every child with SEND in a locked, secure room. Teachers meet frequently with LSAs to discuss the impact of interventions. Children are assessed half termly through teacher's judgements to ensure they are making the expected level of progress. As a school, we use the graduated approach to interventions as outlined below:
	The teacher: with support from the SENCO, carries out an analysis of the child's needs drawing on teacher assessment, previous progress and attainment as well as any views or concerns from parents. <u>Plan</u> The teacher and the SENCO, in discussion with the parents, outline any adjustments and interventions to the curriculum as well as the expected impact on progress. From the information gathered in the assessment phase, interventions to meet the child's needs are

	written on a provision map. Targets are set on an Additional Action Plan or IEP (for children with an EHCP)
How do we support children with SEND in the transition between year groups and from Year 6 to Year 7?	 Do Interventions are carried out by teaching staff as well as small group and I-I interventions with support staff. The class teacher is responsible for the implementation and monitoring of the interventions and the analysis of the impact of the interventions. External professionals may be involved to assist in certain interventions. Review Each half term, provision maps and interventions are reviewed and the impact of the intervention monitored. In discussions with the class teacher and SENCo. It is then decided what support that child will need next. To prepare each child for their next year group, a transition plan is put in place in the Summer term. The child is able to spend an afternoon each week in their new classroom as well as additional time if needed. The child has a transition book with key photos of their new teacher, classroom as well as the outline of the school day that the child can use as reference during the summer term and the summer holidays. When children are leaving the school in Year 6. the class teachers have I-I meetings with each secondary school to discuss the individual needs of the children. The SENCO liaises with the Inclusion Manager/SENCO of the local feeder secondary schools to pass on the necessary information. For pupils with an EHCP, the school's SENCO arranges a meeting with the Inclusion manager/SENCO from the chosen secondary school, the class teacher, the parents and the child during the summer term prior to transition. Where children are transitioning to specialist provision, the SENCO as well as key support staff, visit the setting as well as supporting the child during transition sessions.
How we approach the teaching of children with	• At Crossflatts Primary School, we provide opportunities for everyone to achieve and succeed. We provide quality first teaching strategies which are personalised and differentiated for each child. Every teacher rigorously plans and takes into account the wide range of abilities, aptitudes and interests of the

SEND and children. The severity of the child's needs are assessed using The Bradford Matrix of Needs descriptors. ensure reasonable adjustments are <u>Quality First Teaching</u> - This is where the teacher will adapt resources or change the teaching method being used, to suit that child. If a child is having behavioural problems the teacher will take note of the made? frequency and severity of the incidents and, if possible, adapt the classroom environment to help the child overcome the problems. When a teacher is concerned about a child's physical or mental wellbeing, they will share their concerns with the SENCO and the staff who have responsibilities for pastoral, medical and child-care issues. Whatever the nature of the concern, the teacher will invite the parents or carers of the child into school to discuss the concerns and to ask for their support in resolving the problem. • SEN Support If a child continues to make inadequate progress despite the strategies the teacher has used in class, the teacher may decide that more intervention is needed. The teacher and the SENCO look at the evidence of inadequate progress and decide on strategies which are additional to, or different from those already being provided in the classroom to help the child to make progress. An additional action plan is written by the class teacher for the child. This sets out the learning or behavioural targets (usually up to 3/4 in all) that the child is working towards, and describes the strategies and arrangements needed to help the child achieve these targets. The targets are discussed with the child in age-appropriate language. This will also be shared with parents. Progress towards each target is discussed at termly meetings with parents, or by request at other times through discussions with the class teacher or SENCO. At SEN Support level, additional advice may be sought from external agencies. • <u>SEND Support Plus</u> If a child continues to not make adequate progress at SEN Support, the SENCO will ask for additional support from specialists outside school. This is in addition to the extra support the child is already

support from specialists outside school. This is in addition to the extra support the child is already receiving within school. These specialists may include the Educational Psychologist, the School Nurse

and specialist teachers from Bradford Learning Support will form the basis of future IEPs. At SEN Support plus parents play a particularly important role: Their permission is essential when asking for specialist help or applying for further SEND funding. Their support is crucial in making the most of the help provided. Contact with school about review meetings and attending appointments made for other services will usually by letter on telephone calls from the SENCO. At the IEP review decisions are made about the future actions that may be taken to meet the childs needs. These may be: a) to reduce the amount of help. b) to continue with the existing level of help with new targets being set. c) to increase the level of intervention if there has been little progress. Request for EHCP (Education Health Care Plan) A referral for an EHCP will occur where the complexity of need or a lack of clarity around the needs of the child are such that a multi-agency approach to assessing that need to planning provision and identifying resources, is required. The decision to make a referral for an EHCP will be taken at a progress review. The application for an EHCP will combine information from a variety of sources including but not limited to: Parents, Teachers, SENCO, Social Care and Health Professionals. Information will be gathered relating to the current provision provided, action points that have been taken and the preliminary outcomes of targets set. A decision will be made by a group of people from education, health and social care about whether or not the child is eligible for an EHCP. Education Health Care Plan (EHCP) An EHCP is a legally binding document which sets out the provision the child in must receive to meet their needs. The LA (local Authority) provides the school with additional funds to cover the costs of this provision. This is used for LSA support and/or specialist teaching and equipment. IEPs are used to set targets each term as before: Each year the school must hold ar Annual Review with the par

	An EHCP is a legally binding document which sets out the provision the child must receive to meet their needs. The LA (Local Authority) provides the school with additional funds to cover the costs of this provision. This is used for LSA support and/or specialist teaching and equipment. IEPs are used to set targets each term

	involved with the child to assess the child's progress. A representative from the LA may attend these reviews. Some children, particularly those with physical disabilities, sensory impairments or serious medical conditions may already have an EHCP when they start in the Foundation Stage class. The same procedures of making provision, target setting and reviewing are put into place as soon as the child starts school. These children must also have a Care Plan and, if appropriate a Moving and Handling Plan drawn up by the school and specialists either from the LA or the medical services. Education Health Care Plans are reviewed formally on an annual basis where all parties involved discuss the plan and make necessary amendments. Where a child at SEND Support Plus requires interim additional support, an application for a My Support Plan can be submitted. A My Support Plan application leads to the production of a clear plan of what needs to happen to improve outcomes for the young person and allows school to put in place additional provision.
How do we ensure children with SEND can access the same curriculum and additional learning opportunities as children without SEND?	 At Crossflatts, we ensure reasonable adjustments are made so that all children are fully included in all aspects of school life including extra-curricular activities and school trips. All children are able to take part in after school clubs provided either by the school or from external providers. During a residential trip, the appropriate level of support is planned for. Parents are involved with decisions regarding school trips and residential trips and are involved in helping to prepare their children for a trip or residential trip. The class teacher uses differentiation when teaching so all children can access the learning at their personal level and pace.
What training do staff receive to support children with SEND?	 Within school there is an ongoing programme of INSET training for all members of staff. Staff also attend courses run by the LA, Medical Services or bespoke training providers. The school governors are also informed of courses on disability and SEND issues and are invited to attend. Where specialist training is required the SENCO ensures that the relevant staff are fully trained to meet the needs of the individual.

January 2020 – Laura Wilson Reviewed and updated by Sophie Wilkinson March 2021 To be updated March 2022

	• The SENCO regularly attends courses on SEND issues run by the LA. They also attend school INSET
	sessions about other areas of the curriculum so that they are aware of current practices in these areas
	 and any future developments which may affect children with SEND. The SENCO attends local network meetings to discuss specific areas of need as well as an update from the Principal Educational Psychologist regarding local SEND developments around accessing further support and training. Each half term, the SENCO delivers training to the LSAs about developments within SEND as well as ideas to develop their skills for delivering interventions and sharing good practice.
	 A record of staff training is updated regularly by the SENCO. The SENCO meets regularly with the senior leadership team to discuss and updates or developments around SEND.
How do we evaluate the	Evidence of the effectiveness of this policy on progress in learning or improvements in behaviour for children with SEND will be shown by:
effectiveness of the provision made for children with SEND?	 ongoing teacher and LSA observations of the child in the daily classroom setting differentiated short-term planning by the class teacher to meet the child's needs records and evidence of the child's work showing progress towards curriculum objectives evidence of progress towards targets is collated through each term to assist in reviewing the termly IEP more age-appropriate scores on standardised testing records and evidence of the child's progress towards improving behaviour discussion at an appropriate level with the child about their progress discussion with parents about the child's progress at termly meetings and parent's evenings discussion with outside agencies about the child's progress successful requests for additional funding at EHCP levels
	The success of the policy will result in the needs of all children with SEND being met by: having the systems in place to identify children with SEND as early as possible. making use of good practice in planning for, teaching and assessing children with SEND. regularly reviewing of the child's progress against targets set. providing additional intervention if progress is not adequate.
